

TROLLEY DYNAMIC

TROLLEY DESCRIPTION

The most compact and flexible lifting trolley

Our lifting trolley has been thoughtfully designed to be compact and manoeuvrable. Its slim profile ensures it won't obstruct customer flow or clutter the workspace.

Despite its small size, this trolley possesses a remarkable lifting capacity of up to 60 kg. Say goodbye to straining your back or relying on multiple trips to transport your supplies or merchandises. This trolley is engineered to handle the heavy lifting, empowering you to complete your tasks efficiently.

Whether you work in a retail shop, bookstore, workshop, or any other environment that requires frequent lifting and transportation, our trolley is the ideal tool for the job. It can effortlessly handle a variety of items, including boxes, books, supplies, and more.

The motor speed is 110 mm/s.

1 Model

Capacity: 60 kg
